Subject

**Letter of Recommendation – May El Zein**

To whom it may concern,

It is my pleasure to recommend May El Zein for any future academic or professional endeavors. Ms. El Zein has been an Intern at BMW AG in Munich for the past 9 months. For 4 of those months, she was under my supervision in the logistic innovation department.

I am Jan Butz, a technology project lead at the Logistics Robotics innovation project at BMW.

May El Zein is an individual who has very successfully worked in our team. During her time at BMW, Ms. El Zein displayed a high initiative in working on projects. An example of such initiative is the Augmented Reality application she built for our department to demonstrate an assembly line robot's most essential features. Ms. El Zein worked on the project from start to finish, implementing creative features and taking improvement suggestions from different people into account. She has also shown technical skills while working on User Interface tasks for our logistic robots. Ms. El Zein has shown an high interest in learning new skills and strive to apply them. She is well equipped to grow from challenges and taking on new tasks. It was also evident how seamlessly she blended in the department and showed friendly, yet respectful teamwork.

In conclusion, I highly recommend Ms. El Zein. If her performance in our team is any indication of how she would perform on her next opportunity, she will be a great addition to any organization.
