

Recommendation Letter

It is my pleasure to recommend May for employment for your company. She recently completed a six-month internship at metricminds as a student intern. As her lead, I had the privilege of closely working with May and observing her growth, dedication, and contributions to our team.

From the very beginning, May demonstrated exceptional enthusiasm and a strong willingness to learn. She quickly adapted to our work environment and became comfortable within the team in no time. She took the initiative to understand our Motion Capture Postproduction workflows, asking insightful questions to deepen her knowledge. She delivered high-quality work, implemented feedback promptly, met deadlines efficiently, and proactively asked for timeframes when they weren't given, all while maintaining excellent attention to detail.

In her time with us, May actively contributed to our team's success through her hands-on approach. During shoots, she assisted with studio preparation and worked as a setrunner, ensuring smooth operations. She also cleaned and solved motion capture data, consistently aligning her work with our pipeline requirements. When faced with challenges, she communicated clearly and effectively, often suggesting solutions that integrated well into our workflows. She proactively took the initiative in identifying areas for improvement and was eager to contribute beyond her assigned tasks and documented her steps in detail. Overall, her positive attitude and professionalism integrated her into our work environment seamlessly.

Given her strong work ethic and ability to adapt quickly, I have no doubt that May will be an amazing coworker to any company she joins. I wholeheartedly recommend her for any role she chooses to pursue in the future. Please feel free to get in touch with me if you require any further information.

Sincerely,

A handwritten signature in dark ink, reading "Anton Blumenstein". The signature is fluid and cursive, with the first name "Anton" and last name "Blumenstein" clearly distinguishable.

Anton Blumenstein

Lead Motion Capture Artist
